

# Schedule

Thursday, May 31, 2018

19:00: Warm-up dinner for participants at restaurant and beer garden Hammerhütte, Kirchweg 79, 57072 Siegen.

Friday, June 1, 2018

09:30–10:00

Welcome, introductions, workshop overview

10:00–10:45

Discussion of Hardwired Temporalities concept (aka future book proposal / introduction) by Axel Volmar (University of Siegen) and Kyle Stine (Johns Hopkins University)

Lead discussants: Bowker; Schabacher

10:45–11:00 Coffee Break

11:00–12:00

**Sumanth Gopinath** (University of Minnesota)

*Beep: Listening to the Digital Watch*

Lead discussants: Volmar; Sudmann

12:00–13:00

**Marisa Cohn** (IT University of Copenhagen)

*Software Rot, Infrastructure Decay: Unruly Bodies of Code in Time*

Lead discussants: Bowker, Schabacher

13:00–14:00 Lunch at Picknicker (we'll walk over together)

14:00–15:00

**Eva-Maria Nyckel**

*Ahead of Time? Investigating the Infrastructures and Media-Theoretical Implications of Amazon's Anticipatory Shipping Method*

Lead discussants: Monea; Paris

15:00–16:00

**Geoffrey C. Bowker** (University of California, Los Angeles)

*t.b.a.*

Lead discussants: Volmar; Giessmann

16:00–16:30 Coffee Break

16:30–17:30

**Alexander Monea** (George Mason University)

*t.b.a.*

Lead discussants: Gopinath; Sprenger

17:30–18:00 Break

18:00–19:30 Keynote:

**Gabriele Schabacher** (Johannes Gutenberg University of Mainz)

*Time and Technology. The Temporalities of Care*

19:30 Meet-up to walk up to the Lower Castle and to the restaurant Brasserie.

20:00 Dinner at Brasserie

Saturday, March 12, 2016

09:30–10:30

**Yuk Hui** (Leuphana University, Lüneburg)

*Problems of Temporality in the Digital Epoch*

Lead discussants: Stine; Sprenger

10:30–11:30

**Britt Paris** (University of California, Los Angeles)

*The Technics of Time: Hard and Soft Temporalities of the Future Internet*

Lead discussants: Cohn; Sudmann

11:30–12:00 Coffee Break

12:00–13:00

**Florian Sprenger** (Goethe-University Frankfurt)

*Intervals of Intervention: Microdecisions and the Autonomy of Cars*

Lead discussants: Hui; Nyckel

13:00–14:00

**Andreas Sudmann** (Ruhr-University Bochum)

*The Hardwired Temporalities of Deep Learning. Exploring the Nexus of Temporalities and Infrastructures in Artificial Neural Networks*

Lead discussants: Gopinath; Stine

14:00–14:30 Lunch at the CRC/inhouse

14:30–15:15 Discussion of Friedrich Kittler: *Time Axis Manipulation – Real-Time Analysis*

15:15–16:00 Wrap-Up: Discussion of publication (current and possible contributors, tweaks to the book proposal and timeline for next steps)
